

# Communications

The terrorists are planning an attack on one of the nation's secure facilities. We need to stop the attack. Our field agents have reported that the terrorists have activated several sleeper cells. We are sending you what information we have now. Your task will be to access the terrorist groups communications to find clues to who they are and what they are trying to do.

As soon as you are certain you have accurate information for the DDD you can send that information by using the following web form:

DDD

Make sure your answers are correct as the form can only be completed one time.

The first thing we need you to do is gain access to the terrorist's social media pages. Each suspected organization has its own social media site. We found a portal that has links to the groups we are investigating. However, it is going to take some work to gain access to these sites. They are all password protected. The passwords seem to be connected to the puzzles on the portal site. If you can solve the puzzles, you might be able to gain access to their social media pages. Here is a link to Conspiracy Portal:
